CONSTRUCTION OF THE BRIDGE OVER THE KRČMARA RIVER

Rehabilitation of flood-affected infrastructure

ON-GOING

After being damaged in the floods of 2014 and 2018 the bridge in Rača was completely ruined in the 2023 floods which suspended the traffic on this road. The project envisages the construction of a new 13-metre long bridge with pedestrian paths on both sides to ensure safe pedestrian and road traffic for all residents of Rača, and in particular for 735 residents of the villages of Veliko Krčmare and Jarošice that have to use the bypass road in a length of 13 km.
